PRINCIPLE LATIN AND GREEK ROOTS USED IN BIOLOGICAL TERMINOLOGY

This list will help in learning the many technical terms used in biology. Use this list to learn their meanings.

	s list will rielp in learning the man				
a =	without (prefix),negative	chondr =	cartilage	gaster =	stomach
ab =	from, opposite	chlor =	green	gangli =	knot in string
abysso=	extreme depths	chord =	cord	gen =	descent, generate; also
acanth =	spine	chrom =	color	glia =	glue (like)
actin =	ray	chrys =	golden	gly =	sugar-containing
ad =	to, toward	cili =	eyelash	glom =	ball of yarn
		cirri =	small tentacle	•	•
adipo =	fat			gloss =	tongue
affer =	carry to, bear inward	clitor =	to close	gnath =	jaw
ala =	wing	cloaca =	sewer	gono (gona) =	
alb =	white	cnid =	nettle	gymn =	naked
alveoli =	pit, cavity	coel =	hollow	gyn =	female
amnio =	fetal sac	com =	together		
amphi =	on both sides, both	conch =	shell	haem =	blood
ampulla =	a flask	corn =	horn	hali =	salt-tolerant
an =	without	corp =	body	helminth =	worm
andr =	male	cotyl =	embryonic leaf	hemi =	half
anell =	a little ring	crani =	skull	hepat =	liver
angio =	enclosed	crusta =	crust, shell	herp =	creeping
aniso =			hidden	hetero =	different or other
	opposite	crypt =	comb	hex =	six
ante =	in front of	cten =		hipp =	horse
antho =	flower	cusp =	lance., point		
anthro =	human	cuti =	skin	histo =	tissue
anti =	opposite, against	-cuel =	circular	holo =	complete
aqua =	water.	cyan =	blue-green	hom =	like
arach =	spider, spiderweb	cyst =	capsule	homo =	the same; human, man
arbor =	tree	cyt =	ceil	hyal =	glass-like
arch =	primitive			hydr =	water
arthro =	joint	-dae =	family	hyper =	high activity,above,over
artio =	even	dactyl =	finger	hypo =	low activity, below, under
		de =	from, away, down	, p =	, , , , , , , , , , , , , , , , , ,
asco =	cup-like	deca =	ten	ichth =	fish
-ase =	an enzyme	deca = demi =	half	-ida =	like
aster =	star			-idia =	little
ater (atra) =	black	den =	tooth	insect =	to cut in, divide
aud =	to hear, hearing	dendr =	tree or bush		
auri =	ear	derm =	skin	inter =	between
auto =	self	di =	twice,	intra =	inside, within
avi =	bird	second		iso =	equal
avi =	bird	second dia =	apart	itis =	equal iflammation of
avi = basi =	bird at the bottom	dia =		itis =	iflammation of
basi =	at the bottom	dia = digit =	finger or toe	itis = kary =	iflammation of fusion
basi = bathy =	at the bottom very deep	dia = digit = din =	finger or toe terrible or whirling	itis =	iflammation of
basi = bathy = bdella =	at the bottom very deep sucker	dia = digit = din = diplo =	finger or toe terrible or whirling double	itis = kary = kin =	iflammation of fusion moving
basi = bathy = bdella = bio (bios) =	at the bottom very deep sucker life	dia = digit = din = diplo = don =	finger or toe terrible or whirling double tooth	itis = kary = kin = lab =	iflammation of fusion moving lip
basi = bathy = bdella = bio (bios) = bi (bis) =	at the bottom very deep sucker life two	dia = digit = din = diplo = don = dors =	finger or toe terrible or whirling double tooth back	itis = kary = kin =	iflammation of fusion moving lip space, void
basi = bathy = bdella = bio (bios) = bi (bis) = blast =	at the bottom very deep sucker life two germ cell	dia = digit = din = diplo = don =	finger or toe terrible or whirling double tooth	itis = kary = kin = lab =	iflammation of fusion moving lip
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi =	at the bottom very deep sucker life two germ cell arm	dia = digit = din = diplo = don = dors = duo =	finger or toe terrible or whirling double tooth back two, twice	itis = kary = kin = lab = lacuna =	iflammation of fusion moving lip space, void
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy =	at the bottom very deep sucker life two germ cell arm short	dia = digit = din = diplo = don = dors = duo = -eal =	finger or toe terrible or whirling double tooth back two, twice pertaining to	itis = kary = kin = lab = lacuna = lamella = lepi =	iflammation of fusion moving lip space, void leaf layer scale
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = brady =	at the bottom very deep sucker life two germ cell arm short slow	dia = digit = din = diplo = don = dors = duo = -eal = echin =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma =	iflammation of fusion moving lip space, void leaf layer scale membrane
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = brady = branch =	at the bottom very deep sucker life two germ cell arm short	dia = digit = din = diplo = don = dors = duo = -eal = echin = eco =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc =	iflammation of fusion moving lip space, void leaf layer scale membrane white
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = brady =	at the bottom very deep sucker life two germ cell arm short slow	dia = digit = din = diplo = don = dors = duo = -eal = echin = eco = ect =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = brady = branch =	at the bottom very deep sucker life two germ cell arm short slow gill, lung	dia = digit = din = diplo = don = dors = duo = -eal = echin = eco = ect = ef =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = brady = branch = bronch =	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe	dia = digit = diplo = don = dors = duo = -eal = echin = ecc = ect = ejacul =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = brady = branch = bronch = bucc=	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe cavity of mouth	dia = digit = din = diplo = don = dors = duo = -eal = echin = eco = ect = ef =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) = lumen =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study cavity
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = brady = branch = bronch = bucc=	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe cavity of mouth	dia = digit = diplo = don = dors = duo = -eal = echin = ecc = ect = ejacul =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away throw out	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) = lumen = lumin =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study cavity light-producing
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = branch = branch = bronch = bucc= bursa = caec =	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe cavity of mouth pouch blind	dia = digit = din = diplo = don = dors = duo = -eal = echin = ecc = ect = ejacul = embol = encephalon =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away throw out inserted brain	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) = lumen = lumin = lutea =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study cavity light-producing yellow
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = branch = branch = bronch = bucc= bursa = caec = caly =	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe cavity of mouth pouch blind covering	dia = digit = din = diplo = don = dors = duo = -eal = echin = eco = ect = ejacul = embol = encephalon = end =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away throw out inserted brain inner	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) = lumen = lumin =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study cavity light-producing
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = branch = branch = bucc= bursa = caec = caly = campanula =	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe cavity of mouth pouch blind covering bell	dia = digit = din = diplo = don = dors = duo = -eal = echin = eco = ect = ef = ejacul = embol = encephalon = end = engy =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away throw out inserted brain inner narrow	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) = lumen = lumin = lutea = lys =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study cavity light-producing yellow to kill; a dissolution
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = branch = branch = bucc= bursa = caec = caly = campanula = canth =	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe cavity of mouth pouch blind covering bell spine	dia = digit = din = diplo = don = dors = duo = -eal = echin = ecc = ect = ejacul = embol = encephalon = end = engy = enter =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away throw out inserted brain inner narrow inside	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) = lumen = lumen = lutea = lys = macro =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study cavity light-producing yellow to kill; a dissolution great, large
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = branch = branch = bucc= bursa = caec = caly = campanula = canth = capit =	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe cavity of mouth pouch blind covering bell spine head	dia = digit = din = diplo = don = dors = duo = -eal = echin = ecc = ef = ejacul = embol = encephalon = end = engy = enter = entom =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away throw out inserted brain inner narrow inside an insect	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) = lumen = lumin = lutea = lys =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study cavity light-producing yellow to kill; a dissolution great, large spot
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = branch = branch = bucc= bursa = caec = caly = campanula = canth = capit = capill =	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe cavity of mouth pouch blind covering bell spine head hair	dia = digit = din = diplo = don = dors = duo = -eal = echin = eco = ect = ef = ejacul = embol = encephalon = end = engy = enter = entom = epi =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away throw out inserted brain inner narrow inside an insect upon	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) = lumen = lumen = lutea = lys = macro =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study cavity light-producing yellow to kill; a dissolution great, large
basi = bathy = bdella = bio (bios) = bi (bis) = blast = brachi = brachy = branch = bronch = bucc= bursa = caec = caly = campanula = canth = capit = capill = card =	at the bottom very deep sucker life two germ cell arm short slow gill, lung windpipe cavity of mouth pouch blind covering bell spine head hair heart	dia = digit = din = diplo = don = dors = duo = -eal = echin = eco = ect = ef = ejacul = embol = encephalon = end = engy = enter = entom = epi = erythr =	finger or toe terrible or whirling double tooth back two, twice pertaining to spiny house outside, outer away throw out inserted brain inner narrow inside an insect upon red	itis = kary = kin = lab = lacuna = lamella = lepi = -lemma = leuc = liga = lith = log (logy) = lumen = lumin = lutea = lys = macro = macula =	iflammation of fusion moving lip space, void leaf layer scale membrane white to tie together stone treatise, study cavity light-producing yellow to kill; a dissolution great, large spot
